9) When I hover over the services, they highlight making it hard to read and make me think I can click on them. Remove the highlight and remove the sales part as well. <mark>Fixed</mark>
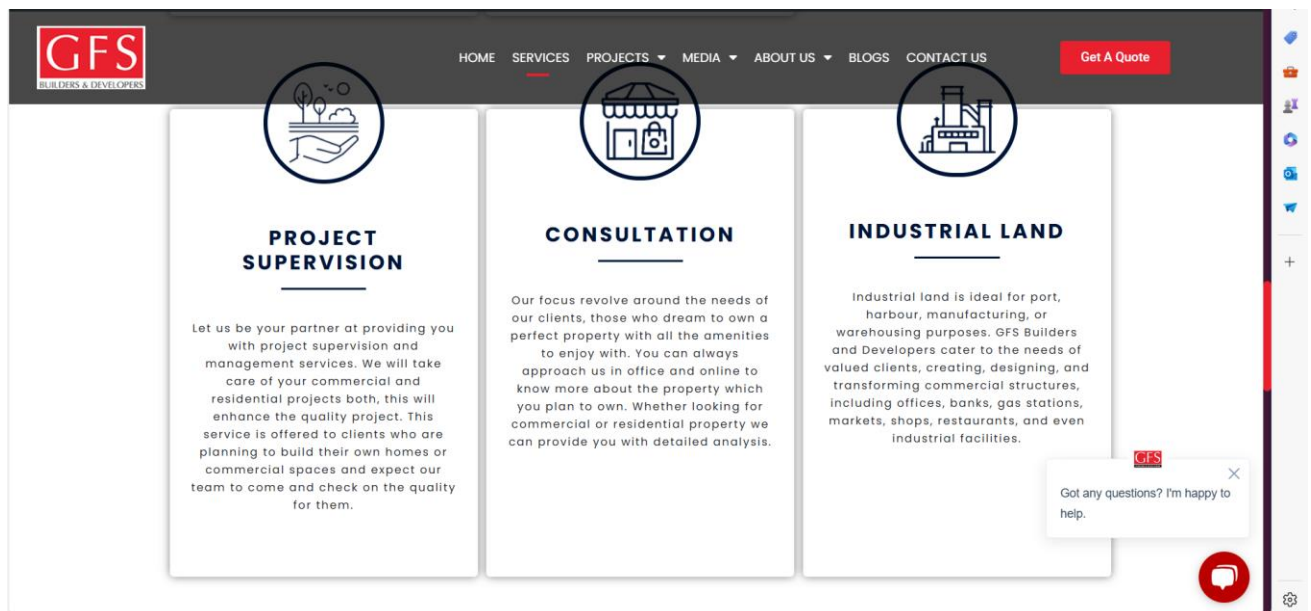

10) Graphic moves when hovering over it. <mark>Fixed</mark>

11) First paragraph only mentions opportunities in Pakistan – I suggest adding Dubai as well. <mark>FIXED</mark>
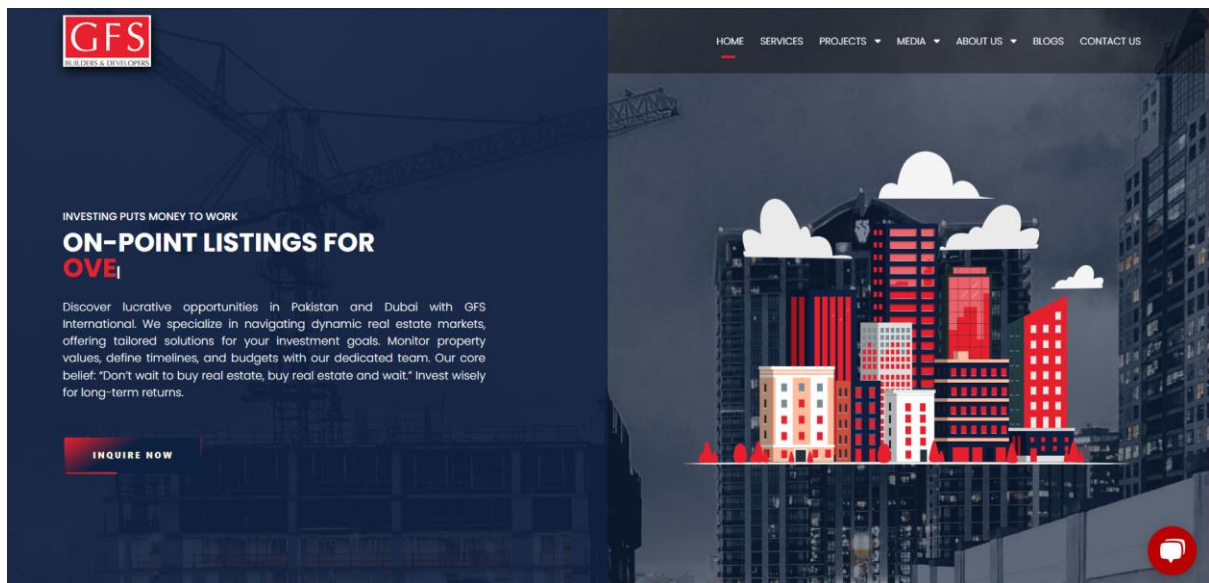

12) Move this to the home page <mark>Fixed</mark>
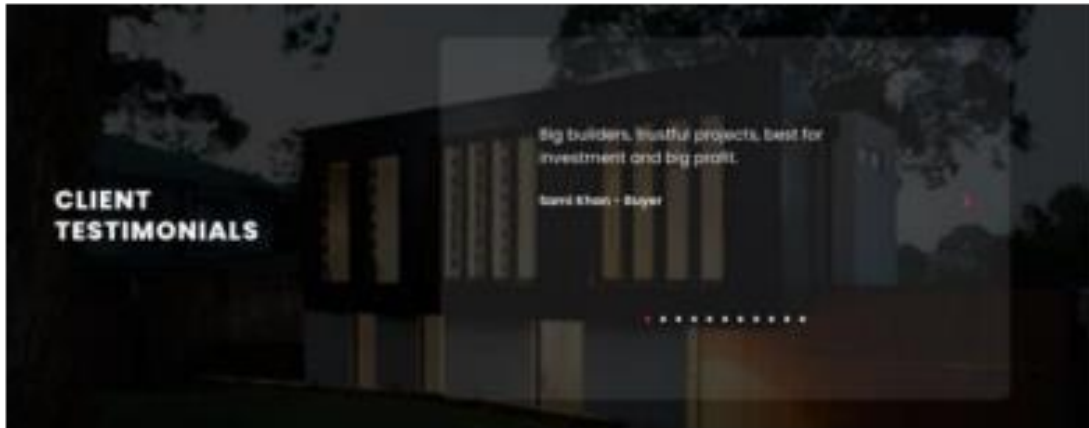

13) You can re-work this into Featured Projects and re write the description to be more relevant to the projects, this section needs to be frequently updated. <mark>DONE</mark>
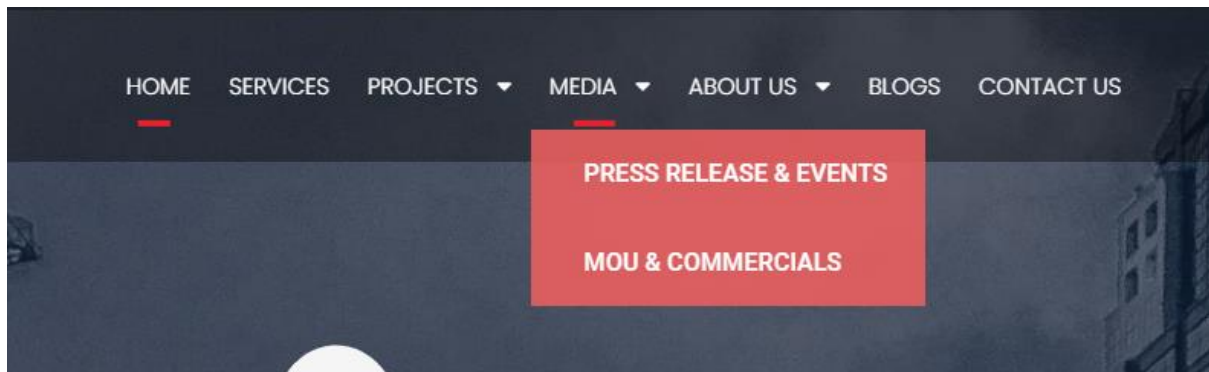

<mark>But Need Project Images ??</mark>

14) We should have a drop down like we do for the Media section with 2 sections. Pakistan and Dubai and place all Pakistan Projects in the Pakistan section and Dubai in Dubai section DONE

15) I suggest creating another section under the location for Archive, for example if a Project has been completed and sold out, we would find it under Pakistan → Archives, rather than mixing it with projects still in development and not sold out. FIXED
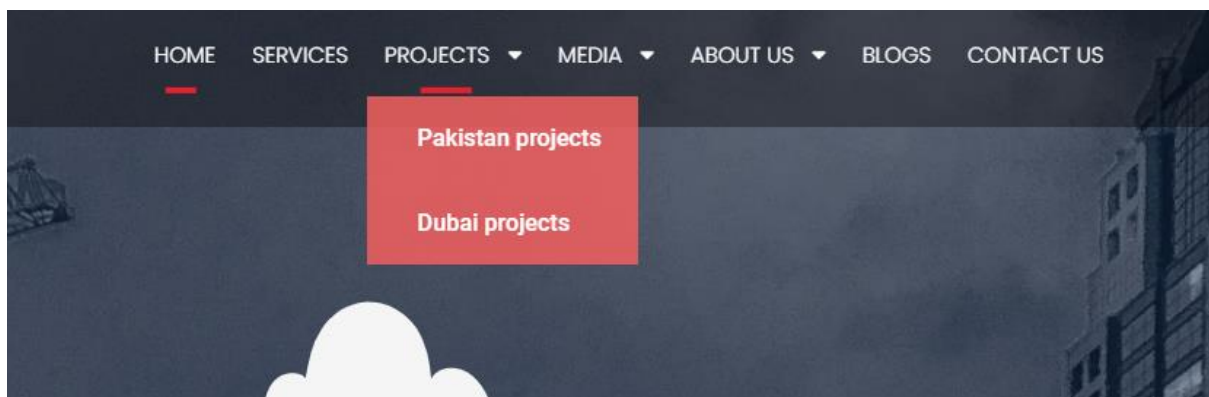

We also need to ensure that all the details and dates for the projects are correct. For example, right now Coventary Gardens has the wrong description as well as a space before its name. The graphic used for this project is wrong as well. - There is a lot of variances in the graphics as well. If we have a uniformed way of making them this would look more professional and show a more structured style. <mark>FIXED</mark>
